

# Conversation on COVID-19

## Tools and Resources

Compiled November 2020

# Conversation on COVID-19

## Tools to help decision making

- Local – check your county public health website
- Indiana - <https://www.coronavirus.in.gov/2393.htm>
- Kentucky - <https://govstatus.egov.com/kycovid19>
- Event risk assessment tool -  
<https://covid19risk.biosci.gatech.edu/>
  - Use 10 as the ascertainment value (based on data from an on-going study in Indiana)
- National
  - John Hopkins - <https://coronavirus.jhu.edu/us-map>

# Conversation on COVID-19

## Know what is happening in your community

- Are case numbers going up or down?
- Is your county's score changing weekly or staying steady?
- Are there special circumstances driving the cases in your community?
  - Long-term care facilities?
  - Prisons?
- Are schools meeting in-person, using a hybrid model, or virtual only?
- Are the vast majority of people wearing facial coverings when interacting with other people?
- Are people in the community working well with contact tracing efforts?

& serve  
like Jesus

# Conversation on COVID-19

- IKC recommendations
  - If doing virtual worship → keep going!
  - If doing in-person worship → have a plan for what COVID community conditions will change this
  - Counties scored as orange or red
    - Suspend in-person worship
    - Suspend other in-person gatherings or meetings
    - Suspend in-person pastor visits – even for 1:1 meetings
    - Until county scores blue (IN), green (KY), or yellow for two-three consecutive weeks
  - Suspend and use electronic means of meeting if Event Risk Assessment tool says there is more than a 25% risk of one person being COVID positive at the event
