## Worship & Bible Study

Youth from both countries work together to lead Bible study and cultural discussions. They also work together to plan and lead vespers for the group and for churches that provide our church dinners.

## Work Projects

Both countries' leaders plan a variety of work projects – at one another's camps and for one another's mission partners.

## Fellowship & Entertainment

At Merom, we had a chance to be up on the high ropes together; at Wimlechhausen, we led a "game day" with youth from the area. We also spent time at an amusement park; went to plays; toured the countryside and spent time with families.

## Church Visits

During our preparation time, the IKC group visits each home church represented. During our hosting year, other churches are invited to provide a church dinner while we provide the vesper service in thanks for being allowed time at the hosting church. It was such a great idea, that our German partners included the church dinners for our visit!

## Travel

We explore the history, culture and current social practices of the U.S. and Germany, traveling within our church districts and also visiting large cities beyond our regions for a broader national experience.
